The Greater Miami Expressway Agency Unveils Stunning Lighting Installation at Miami's Busiest Expressway Interchange

MIAMI – September 8, 2023 – The Greater Miami Expressway Agency (GMX) is proud to announce the completion of aesthetic lighting enhancements at the SR 836 Dolphin Expressway/SR 826 Palmetto Expressway Interchange.

The state-of-the-art lighting installation, which was unveiled on September 6th, includes high-performance LED fixtures on 16 piers at the four main bridges of the SR 836/SR 826 Interchange. The lights can be programmed remotely in a vast array of light color combinations and sequences to enhance aesthetics and highlight observances and holidays. The beautification project also speaks to GMX's commitment to improve the expressway system by providing higher quality, more reliable lighting.

GMX Interim Executive Director Torey Alston said the project was inspired by local leaders who challenged GMX to make its five expressways the most distinctive in Miami. The new enhancements now bring a captivating vibrancy to the iconic interchange.

The new lighting project is just the beginning of GMX's plan to bring a unique experience to all its expressways. The agency plans to continue improving safety and aesthetics by executing additional lighting projects throughout its roadway network.

“GMX is dedicated to providing its customers with the best possible experience – and these new lighting improvements are just one of the ways it is doing that. We look forward to continuing our efforts to make our expressways brighter, more beautiful, and more enjoyable for all who use them,” said Alston.

###

The Greater Miami Expressway Agency (GMX) operates five expressways in Miami-Dade County and portions of northeast Monroe County that include SR 836/Dolphin Expressway, SR 112/Airport Expressway, SR 874/Don Shula Expressway, SR 878/Snapper Creek Expressway, and SR 924/Gratigny Parkway. GMX is funded almost entirely by toll revenues and is dedicated to making your commute safer and more efficient.
